Profile

Final-year Computer Science graduate with hands-on full-stack development experience across Java/Spring Boot, React, Node.js, Laravel, and PostgreSQL, plus mobile development with React Native and Flutter. Completed a six-month research internship building AI-driven full-stack features and end-to-end test automation. Seeking Software Engineering Internship / Associate opportunities to contribute to scalable, user-focused applications.

Education

University of Colombo School of Computing (UCSC) 2023 – Present

- B.Sc. in Computer Science

St. Aloysius' College, Galle 2021

- G.C.E. A/L – Physical Science Stream | Z-Score: 1.7732 | Combined Maths: A, Physics: A, Chemistry: B

Professional Experience

Research Student | Rasaswadaya Project

🔗 [View Repository](#)

AI-Driven Entertainment Platform for Sri Lankan Arts & Culture

- Architected a full-stack app (Next.js, Node.js/Express, TypeScript, PostgreSQL/Prisma) with a multi-tier RBAC system, gig booking engine, and JWT/Supabase authentication
- Built a recommendation system using Graph Neural Networks (PyTorch Geometric) for personalized content delivery
- Built a Python E2E test suite (Playwright, pytest, Page Object Model) integrated into a GitHub Actions CI pipeline
- Collaborated with a 5-developer team under Dr. Shiromi Arunathilake's supervision
- **Technologies:** TypeScript, Next.js, Node.js, PostgreSQL, Prisma, Python, PyTorch, Playwright, GitHub Actions

Development Projects

PureLeaf – Tea Factory Management System

🔗 [View Repository](#)

- Built a multi-tenant platform for 14 tea factories with 7 user roles, real-time sync, and a cross-platform mobile app plus web dashboard
- Engineered an 88-test automated QA suite (Playwright + pytest) integrated into a GitHub Actions CI/CD pipeline for smoke and full regression testing
- **Technologies:** React, Spring Boot, PostgreSQL, Firebase, React Native, Playwright

Beeline Campus SMS – Student Management System

🔗 [View Repository](#)

- Built a full-stack SMS for a multi-branch campus (4 roles) with a layered Spring Boot REST API (PostgreSQL/Hibernate) and a role-based React SPA
- Implemented QR-code-based attendance with a live camera scanner, plus homework tracking, announcements, and fee management modules
- **Technologies:** React 19, Spring Boot 3.3, Hibernate, PostgreSQL, Java 17

Other Projects: *GarageMaster* – vehicle service platform, CI/CD (React, Laravel, MySQL) | *LaunchPad* – internship mgmt., multi-stage RBAC (PHP, PostgreSQL) | *DineMate* – restaurant mgmt. system (React, Node.js, MongoDB) | *SnapTalk* – QR-based chat app (Flutter, Firebase)

Technical Skills

Languages & Frontend: Java, Python, TypeScript, JavaScript, PHP, C++, Dart, React.js, Next.js, Tailwind CSS, HTML5/CSS3

Backend & Mobile: Spring Boot, Node.js, Express.js, Nest.js, Laravel, RESTful APIs, React Native, Flutter

Database & ORM: PostgreSQL, MySQL, MongoDB, Prisma, Hibernate, Firebase

Testing & DevOps: Playwright, pytest, GitHub Actions (CI/CD), Docker, Git/GitHub, Postman, Linux

Project Management: Jira, Slack, Figma, Agile/Scrum

Extracurricular Activities

University of Colombo Hockey Team

2023 – Present

- Active player in 3+ inter-university tournaments; SLUG 2025 Champions, Vice Chancellor Trophy 2025 Champions, Colour Award (2025)

Rotaract Club of UCSC

2025 – Present

- Editor, Executive Committee – leading a 3-member team, producing 10+ publications and social media content reaching 500+ members monthly
